

# Lumark Prevail Petite

The Prevail and Prevail Discrete series are now expanding to include an all-new, smaller housing size: the Prevail Petite. The Petite housing will be utilized as both an area / site luminaire (with the standard Prevail quick mount arm) as well as a wall mount luminaire. The surface mount drop door facilitates ease of installation onto exterior walls with recessed or surface wiring. The Prevail Petite luminaire combines optical performance, energy efficiency and long-term reliability in an advanced, full cutoff design. Utilizing the latest LED technology, the Prevail Petite luminaire delivers unparalleled uniformity resulting in greater installation spacing.

## Feature Highlights

- Available in 4,300 – 12,200 lumens (30W – 90W) models
- Replaces 70W up to 250W HID equivalents
- Efficacies up to 147 lumens per watt
- Integrated emergency battery pack options (wall version only)
- Integrated stand-alone or wireless controls
