

# Corelite Vaulta Linear Series

## Go Easy on the Eyes

Say hello to a space that is more comfortable on the eyes. The black or white louvered baffle uses an engineered optical system to reduce light glare while providing efficient lighting where needed in a space. The result is high quality, low UGR lighting while providing unique aesthetics and colour combination.

## Unravel Seamless Illumination

Say goodbye to lens gaps and breaks in illumination common in traditional linear runs. Seamless illumination and high performance is possible with a proprietary flexible continuous roll lens that won't ripple or bow over long lengths and high efficacies that provide significant energy savings.
